Handling Applications

Incomplete Applications: Voter registration organizations may fill in missing lines on registration cards with the consent of applicants.

Photocopying Completed Applications: As a best practice, a voter's full or partial Social Security number and/or driver's license number should not be retained.

Mailing Applications or Submitting Them Through a Third Party: Completed applications must be delivered by 21 days before Election Day.

The Secretary of State recommends delivering completed voter registration cards as soon as possible to the appropriate municipal registrar. The Secretary of State request if submitted to their office that completed registration cards be received by the 30th day before an election so they can distribute them to the appropriate municipal registrar. They also request that submissions of voter registration cards from drives be bundled together and returned with the contact information of the organization or individual conducting the drive.

If a new Maine voter who mails a voter registration application or submits an application through a third party does not include with the application a photocopy of [one of the following identifying documents](#), an election official will contact the person to arrange submission of the document:

- Maine driver's license or other valid photo ID;
- current utility bill;
- bank statement;
- paycheck stub; or
- other government document that shows the voter's name and address.
