

Conducting a Voter Registration Drive in Virginia

Voter Registration Deadlines

For general and primary elections, applications must be received or postmarked 22 days before the election.

A specific turnaround time applies to voter registration drives turning in applications they collect. See below.

Getting Started

Training Requirement: Voter registration drive participants must register and complete training if they request 25 or more voter registration forms from the Virginia Department of Elections or their local Registrar. Contact your local election office to receive information on trainings. Online training is available at www.elections.virginia.gov/registration/registration-drives

Notification and Registration Requirements: Upon completion of training an organization or person will complete an affidavit and be allowed to request 25 or more voter registration forms.

Compensation Restrictions: Do not pay registration drive participants based on how many registrations they collect.

Obtaining Applications

State Form:

- The state mail-in voter registration application can be downloaded at www.elections.virginia.gov/registration/voter-forms/index.html
- The Department of Elections recommends voter registration drives use the Virginia form to provide for faster processing of applications.
- The Department of Elections is required to make available to any individual or group a reasonable number of mail voter registration applications. Currently the Department of Elections will provide up to 200 forms per request.

Federal Form: The [federal mail-in voter registration application](#) may be used in voter registration drives.

Photocopying Blank Forms: Virginia law does not prohibit photocopying or printing blank forms for use in voter registration drives. However, the Department of Elections recommends that organizations request and use original forms provided by the Department of Elections or local election officials. However, an original signature is required on completed applications.

(continued on reverse)

Handling Applications

Providing Receipts: Any third party accepting a voter registration application must complete and give the applicant a receipt that is located on the application, or provide the applicant with a receipt that requests and includes the same information on the receipt as is on the registration application. The receipt must contain all of the following information:

- The name, phone, and email address of the office, group, or individual receiving the application
- The date that the office, group, or person received the registration application from the applicant
- Contact information for the Department of Elections (pre-printed on the state form receipt)

Incomplete Applications: Do not mark, add, change or delete any information on the application.

Photocopying Completed Applications: Under Virginia law, drives may not copy, disclose, or make any use of the applicant's social security number, or any part of it. There is no law or rule prohibiting organizations conducting voter registration drives from otherwise copying or retaining information from completed registration applications.

Submitting Completed Applications: All registration applications collected as part of a voter registration drive (whether the federal form or the state form is used) must be **delivered or postmarked no later than 10 days** after the application is signed, but they must be submitted by the registration deadline even if they were signed less than 10 days before.
